PROJECTS

Dictionary App — built with HTML, CSS, React.JS and Bootstrap.

This application returns multiple definitions, phonetics and an image gallery for the searched word.

Weather App — built with HTML, CSS, JavaScript and Bootstrap. I re-created this app using React components.

This web app will display the current weather conditions and a 5-day forecast for each city that you search for.

PORTFOLIO — built with HTML, CSS and Bootstrap.

This website showcases examples of my work.

SKILLS

HTML
CSS
JavaScript

React.js

Bootstrap

Figma
